

Engineered Tooling Solutions *FAST*

The TMT Sticky Foot - **Magnetic**, is a magnetic foot that can hold an ROV or other subsea equipment to a relatively smooth ferrous surface including; ship hulls, submarines and other subsea objects. The strength of the grip makes it suitable for a wide range of inspection and cleaning tasks.

The TMT Sticky Foot – **Magnetic** uses a number of rare earth magnets which are hydraulically operated to engage and release the Sticky Foot from the targeted surface.

The Sticky Foot - **Magnetic** can be customised to suit the client.

Features:

- Easy to install and remove
- Corrosion resistant materials
- Varies types of handles available
- ROV deployed
- Field proven

Specifications:

- | | |
|-----------------|--------------------|
| • Dimensions | 450L x300W x400Hmm |
| • Weight in Air | 70kg |
| • Fittings | $\frac{7}{16}$ JIC |
| • Depth Rating | Unlimited |
